# Wat doen we

We indexeren het internet en structureren de data.

# Wat doen wij?

- **Indexeren het web en structureren de data**  
Elke maand indexeren we ruim 300 miljoen domeinnamen uit 50 verschillende landen. Van elke website indexeren we 10-20 pagina's die we samenvatten in bijna 170 variabelen.
- **Ruim 5 jaar historie**  
Elke maand updaten we al onze data. Sinds de start van Dataprovider bewaren we elke samenvatting van elke website. Het resultaat is een gestructureerde, doorzoekbare database met 5 jaar historie.
- **Olie voor grote bedrijven**  
Onze data werkt als olie voor grote bedrijven. Ze gebruiken het voor marktsegmentatie, analyses, leadgen en voor het verrijken van klantprofielen.
