### Who do we mean by 'you'?

You're a registrar that registers .nl domain names for registrants.

- You're an intermediary between us and the registrant.
  - You act on behalf of the registrant.
  - All communication between us and the registrant goes through you.
    - Except when we need to get an update authorised. Then we'll contact the registrant direct.

### Who do we mean by 'we'?

SIDN, the Netherlands Foundation for Internet Domain Name Registration.

### What is .nl Control?

A service that gives registrants extra control over important updates to .nl domain name registrations.

- For details of how the service works, see sidn.nl.
  - That information is available from the registrars' website as well.
  - It forms part of these conditions.

### Are we allowed to change .nl Control?

Yes, we're allowed to make changes to the service.

- The most recent description of the service published on our website is decisive.

### How does a registrant subscribe to .nl Control?

You enable the registrant to read the Conditions for using .nl Control services.

- And you make it possible for them to save a copy.
- We're allowed to make extra requirements about the way you let registrants read the conditions.
  - If we do that, we'll publish the details on our website, sidn.nl.

The registrant sends you the subscription form.

- You can download the blank form from our website.

- The special requirements that the registrant has to meet are given there as well.
- You check that the registrant has completed the form correctly and in full.
- And that they've provided all the documents that need to be submitted with the form.

You can set up .nl Control subscriptions only for domain names that you manage.

#### What does .nl Control cost?

Details are given in the schedule of fees.

- We're allowed to change the fees.

#### What other rights and obligations apply?

The ones described in the General Terms and Conditions for Registrars.

- Unless *these* conditions say something else.
- Articles 10 to 15 of the General Terms and Conditions for Registrars are particularly important.
